

Public Involvement Meeting Notice

Improvements to Beechnut Drive at Kohlsville River to be discussed at February 19, 2025 Meeting

Planned improvements for Beechnut Drive and West Bend Road in the Town of Wayne, Washington County, will be discussed at a Public Involvement meeting on February 19, 2025. The meeting will start at 6:30 PM at the Town of Wayne Town Hall, W6030 Mohawk Road, Campbellsport, WI 53010.

The Beechnut Drive project involves improvements to the roadway and a structure replacement at the crossing of Kohlsville River approximately 0.76 miles west of CTH W. The proposed improvement will include the removal of the existing bridge and placement of a new single-span concrete flat slab bridge. The 148-foot long project will include replacement of the bridge on the existing alignment and approximately 100 feet of roadway approaches.

During construction of the project, the site will be closed to traffic, with traffic using adjacent roadways to navigate around the project. Construction is anticipated to take approximately 3 months during the summer/fall of 2026. The earliest construction could begin is June 15th due to in-stream work restrictions. The exact timeframe will be determined by the contractor based on their availability.

A variety of exhibits and maps will be featured at the Public Involvement meeting, and representatives from the Town of Wayne and Ayres Associates will be available to discuss the project and answer questions. The public is encouraged to attend to examine the proposed improvement and discuss any concerns they might have.

Persons requiring an interpreter, materials in alternate formats, or other accommodations to access this meeting virtually are encouraged to contact the Town of Wayne or Ayres at the numbers below at least 72 hours prior to the meeting so arrangements can be made.

Individuals who are unable to attend on February 19, 2025 can contribute comments about the project by contacting the following individuals:
